Not recommended for children under 3 years old. Let Orchard help bring your apple pieces together thanks to you for visiting the Orchard Apple Puzzle webpage. We have created this page to give you some helpful clues to help successfully assemble your Orchard 3D Apple Puzzle. Some people enjoy working on a puzzle with no clues at all, while others look for step-by-step instructions. For those who want to solve the puzzle with minimal help, we have provided three very basic instructions and helpful clues on the side of the puzzle box. For those who prefer more help, this webpage provides more clues and more detailed instructions to help you successfully assemble your Orchard 3D Apple puzzle. Note that if you are brave enough to handle the puzzle just using the instructions on the side of the apple puzzle box, allow yourself 30-60 minutes to solve this. Reading the clues below will take out some of the guesswork and Reduce your assembly time. Helpful Clues:#1This a 3D puzzle that creates an apple. Hint #2There are 44 pieces overall, including:Two sets of 21 matching pieces green trunk one/leafOne center post hint #3It is best to build the two halves of the apple using two sets of 21 pieces:Arrange the 21 matching pieces into pairs. Locate the two pieces outside, the two pieces that match with a white type - one piece with Orchard software consolidates diagnostic information, and the other with Orchard software your strategic partner in laboratory informatics. Starting with these two pieces, add pieces that fit. The challenge begins here. Notice the curve and shape of the apple while adding pieces. Adjust the curve and shape to find the next work. Remember, you build two halves - each half made up in the same way with one in each of the 21 pieces. Detailed assembly instructionsUse the diagram below to fit each piece. Place them in the order described by the diagram to create two sets of 21 parts each. Start with external pieces (with the white type), and #1 diagram. Then, you #2 piece, followed by #3 and so on. Repeat each half until you have two completed halves with only the stem/go up and the remaining central position. Then place one half in your hand and place the stem in the top slot. While keeping the stem in the slot, grab the second half and bring the two halves together. Finally, once the two halves are secured together, insert the center post (first slot end) into the hole in the center of the apple, pushing it all the way to the other end. Congrats! You successfully solved Orchard's apple puzzle. Orchard Software: Bringing diagnostic information together We are happy to help you put your apple puzzle pieces together, just as we bring diagnostic information together for labs of all shapes and sizes. Orchard's various information systems serve more than 1,400 laboratories across the country.
